FINISH GOOD SALES AND ITEM FORECAST	2

Overview

The Finish Good Sales and Item Forecast Plugin is a specialized plugin tool that was developed for Auto Count Accounting to assist organizations and business in forecasting the amount of finish goods and raw materials that needed to create a finish product. This plugin is very useful for companies that want to forecast their company production and the materials that are needed during restocking.

System Requirements

- AutoCount Accounting 2.0 Basic Above
- UDF Module
- Valid for One Account Book Only

Finish Good Sales and Item Forecast
